

International School of Astrophysics

Life and Death: From Stars to Compact Objects

Asiago (Italy)

August 28 – September 3, 2022

Goal of the school is to offer graduate students and young researchers a comprehensive view of the late evolutionary stages which lead from stars to compact objects. The activities of the school will benefit from the presence of world leading experts in different classes of astrophysical sources. This is a particularly favorable time for getting together experienced and junior scientists.

LECTURERS

*Elena Amato, Marica Branchesi, Robert Izzard, Andrew King,
Marco Limongi, Sandro Mereghetti, Andrea Possenti, Om Salafia,
Maurizio Salaris, Lionel Siess, Roberto Taverna, Pier-Emmanuel Tremblay,
Hans Van Winckel, Luca Zampieri, Silvia Zane*

SOC

Paola Marigo (co-chair), Roberto
Turolla (co-chair), Marica Branchesi,
Giorgio Matt, Sandro Mereghetti,
Maurizio Salaris, Roberto Taverna,
Achim Weiss, Silvia Zane

LOC

Paola Marigo, Roberto Turolla, Paolo
Ochner, Alessandro Siviero, Roberto
Taverna, Paola Zenere
